

Kamakakūokalani Center for Hawaiian Studies, Ka Huli Ao Center for Excellence in Native Hawaiian Law, and the University of Hawai'i Sea Grant College Program's Center for Island Climate Adaptation and Policy invite you to join the conversation:

# Climate Change and Fresh Water in Hawai'i

This conversation is the 2nd in a series of campus and community forums at UH Mānoa.

Opening remarks  
by DLNR Director  
William Aila Jr.

Monday, February 7th • 6:30 pm – 8:00 pm

**Kamakakūokalani Center for Hawaiian Studies**  
Hāla'o Haumea • 2645 Dole Street, Honolulu

live streamed at [www.kahuliao.com](http://www.kahuliao.com)

A roundtable of natural resource specialists and decision-makers will review current trends affecting fresh water in Hawai'i and explore practical approaches to adapt to a changing climate. Audience members will be encouraged to engage with panelists in dialogue focusing on solutions and future research needed to support them. Please join us for this important conversation about Hawai'i's future.

**SPEAKERs:**

**Ka'eo Duarte**, PhD, regional Asset Manager, Hawai'i Island Agriculture and Water resources, Kamehameha Schools
