Temple Under Siege

Spirit of the Land- "A production of Na Maka o ka Aina"
The Mauna Kea Story

Mauna Kea - Temple Under Siege paints a portrait of a mountain that has become a symbol of the Hawaiian struggle for physical, cultural and political survival. The documentary explores conflicting forces as they play themselves out in a contemporary island society where cultures collide daily.

In an effort to find commonalities among indigenous people elsewhere regarding sacred mountains, the documentary visits Apache elders of Arizona who face the reality of telescope development on their revered mountain, Dzil Ncha Si An, known as Mt. Graham.
