MY THOUGHTS AFTER

Listening to the Community

Why is ground water so important?

Ground water is very important because it's the purest element of all and it's the means to survival.

How bad is the water crisis?

Especially for our agriculture and produce and vegetable farms it's really minimal.

Where is the water crisis most serious?

Polluted water and run off water that goes into fresh water stream and into our watersheds.

Agricultural Farmers - water
Clean Drinking Water/watersheds needed more)

Ok, this is a lot of bad news, but is there anything we can do to fix it?

I hope that we fix the ground piping water on agricultural farming, and more water sheds.

More importantly, how to we get from here to there?

We, as people who care need to identify and address to the people and our representatives -

MY THOUGHTS AFTER

Listening to the Community

Why is ground water so important?

We all need good water.

How bad is the water crisis?

It is bad because it has been so badly ignored and problems w/military non-disclosure prevents rectification of problems.

Where is the water crisis most serious?

Red Hill affects from Waianae to Hawaii Kai, and the most populous areas. But it is all serious if it affects any ~~one~~ one of our people.

Ok, this is a lot of bad news, but is there anything we can do to fix it?

Clean-up right away.

More importantly, how to we get from here to there?

You know better. lol.

MY THOUGHTS AFTER

Listening to the Community

Why is ground water so important?

Nai is the life source.

How bad is the water crisis?

Critical, we will be dealing w/ mismanagement for centuries to come.

Where is the water crisis most serious?

It's global. The most serious issues lies w/ corporate power and the effects of those whose voices aren't heard.

Ok, this is a lot of bad news, but is there anything we can do to fix it?

Yes. Educate, empower, ku'e

More importantly, how to we get from here to there?

Continue to host events like this, and pressure those w/ powers to create change.
